

ACKNOWLEDGEMENT OF NOTIFICATION  
OF HAZARDOUS WASTE ACTIVITY  
(VERIFICATION)

This is to acknowledge that you have filed a Notification of Hazardous Waste Activity for the installation located at the address shown in the box below to comply with Section 3010 of the Resource Conservation and Recovery Act (RCRA). Your EPA Identification Number for that installation appears in the box below. The EPA Identification Number must be included on all shipping manifests for transporting hazardous wastes; on all Annual Reports that generators of hazardous waste, and owners and operators of hazardous waste treatment, storage and disposal facilities must file with EPA; on all applications for a Federal Hazardous Waste Permit; and other hazardous waste management reports and documents required under Subtitle C of RCRA.

## **1.0 INTRODUCTION**

In accordance with RCRA Policy, hazardous waste transporter, generator, or treatment/storage/disposal (TSD) facilities are subject to Compliance Evaluation Inspections (CEI's) which address the facility environmental concerns. The inspections are conducted to evaluate compliance with all applicable standards promulgated under 40 CFR 262 through 268.

Under TES V Work Assignment R02035, CDM Federal Programs Corporation (CDM Federal) was contracted to conduct a CEI at Micro-Products Engineering, 230 Ridgewood Ave., in Newark, New Jersey. Patricia Tom of CDM Federal visited Micro-Products Engineering on September 20, 1993 and was not able to perform an inspection site tour of the facility because the company was out of business. The information presented within this report was obtained from a visual observation of the defunct company.

The CEI was conducted using (as appropriate) the New Jersey Generator Inspection Report, General Site Inspection Information Form, Waste Minimization Checklist, Transporters Standards Checklist, Hazardous Waste Tank System Inspection Checklist, and the RCRA Land Disposal Restrictions Checklist. These documents were used as a basis for the inspection. All pertinent information is recorded in the inspection narrative. When necessary relevant checklists were completed to provide additional detail when specific concerns were encountered during the inspection.

## **2.0 SITE BACKGROUND**

### **2.1 FACILITY DESCRIPTION AND OPERATIONS**

The facility is out of business with the five story building remaining in a permanently closed state with nailed in boards and locks all around the property. This facility location was adjacent to a closed public school and across from a recycling center. There were no signs of employees or other persons around the area.

### **2.2 HAZARDOUS WASTE GENERATION**

The facility was no longer in operation.

DRAFT

### **3.0 ON-SITE OBSERVATIONS**

#### **3.1 IDENTIFICATION OF HAZARDOUS WASTE**

The facility was no longer in operation.

#### **3.2 EXAMINATION OF PAPERWORK**

The facility was no longer in operation.

##### **3.2.1 The Manifest Record**

The facility was no longer in operation.

##### **3.2.2. Inspection Log Book**

The facility was no longer in operation.

### **4.0 CONCLUSIONS**

The facility was out of business and appears to have been out of business for some time. The immediate surrounding area appears to be a depressed commercial area.
